**Notes to the Condensed Consolidated Financial Statements**  
**For the half year ended 31 December 2021**

**Note 1 Basis of preparation of half year report**

**Statement of compliance**

The condensed interim consolidated financial statements (the interim financial statements) for Riversgold Ltd ('the Company') and its subsidiaries (together referred to as 'the Group') are general purpose interim financial statements, and have been prepared in accordance with Australian Accounting Standard *AASB 134 Interim Financial Reporting* and the *Corporations Act 2001*. Compliance with AASB 134 ensures that the financial statements comply with International Financial Reporting Standard *IAS 134 Interim Financial Reporting*.

These interim financial statements do not include all the notes of the type normally included in annual financial statements and therefore cannot be expected to provide as full an understanding of the financial performance, financial position and financing and investing activities of the Group as the full financial statements. Accordingly, these interim financial statements are to be read in conjunction with the annual financial statements for the year ended 30 June 2021 and any public announcements made by Riversgold Ltd during the half-year reporting period in accordance with the continuous disclosure requirements of the *Corporations Act 2001*.

The interim financial statements were approved by the Board of Directors on 16<sup>th</sup> March 2022.

**Basis of preparation**

The interim financial statements have been prepared on the historical cost basis. Cost is based on the fair values of consideration given in exchange for assets. The Company is a for-profit entity domiciled in Australia and all amounts are presented in Australian dollars.

**Accounting policies and methods of computation**

The same accounting policies and methods of computation have been followed in these interim financial statements as compared with the most recent annual financial statements, except for the adoption of new Accounting Standards as set out below. These accounting policies are consistent with Australian Accounting Standards and with International Financial Reporting Standards.

For the purpose of preparing the interim financial statement, the half-year has been treated as a discrete reporting period. Comparative balances for the half year ended 31 December 2020 have been revised to reflect recognition of the disposal group disclosed in note 6.

**Adoption of new and revised Accounting Standards**

*Standards and Interpretations applicable to 31 December 2021*

In the period ended 31 December 2021, the Directors have reviewed all of the new and revised Standards and Interpretations issued by the AASB that are relevant to the Group and effective for the current annual reporting period. As a result of this review, the Directors have determined that there is no material impact of the new and revised Standards and Interpretations on the Group.

*Standards and interpretations in issue not yet effective*

The directors have also reviewed all of the new and revised standards and interpretations in issue not yet effective for the half-year ended 31 December 2021.

As a result of this review, the directors have determined that there will be no material impact of these standards and interpretations on the Group and, therefore, no change is necessary to Group accounting policies.

**Notes to the Condensed Consolidated Financial Statements**  
**For the half year ended 31 December 2021**

**Going concern**

The interim financial statements have been prepared on the going concern basis, which contemplates the continuity of normal business activity and the realisation of assets and the settlement of liabilities in the normal course of business.

For the six months ended 31 December 2021, the Group had an operating loss of \$948,833 and had net operating cash outflows of \$144,272. The Group has cash of \$469,466 as at 31 December 2021 and net current assets of \$543,847 at 31 December 2021.

The ability of the Group to continue as a going concern depends on future successful capital raisings, realisation of the convertible notes, the successful exploration and subsequent exploitation of the Group's tenements and/or sale of non-core assets.

The directors are of the opinion that the Group is a going concern as the Group expects to have more funds available than expected to be required for committed and required expenditure over the following year, and has the ability to scale back discretionary expenditure pending the timing of future capital raisings. If shareholders approve the EV Minerals Pty Ltd acquisition and capital raisings described in note 14, the maximum raised funds of \$2,162,379 (before costs) is more than sufficient for budgeted expenditure for the next 12 months, should the Company be able to successfully raise the funds.

Should the Group not receive expected value from realisation of the convertible note, or not raise further funds as required or reduce expenditure to meet funds available, there exists a material uncertainty that may cast significant doubt on the Group's ability to continue as a going concern, in which case it may be required to realise its assets and extinguish its liabilities other than in the ordinary course of business, and at amounts that differ from those stated in the financial statements. This financial report does not include any adjustments relating to the recoverability and classification of recorded asset amounts or the amounts or classification of liabilities and appropriate disclosures that may be necessary should the Group be unable to continue as a going concern.

**Significant accounting judgements and key estimates**

The preparation of the interim financial statements requires management to make judgments, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets, liabilities, income and expense. Actual results may differ from these estimates.

The same judgments, estimates and assumptions were used in preparing the interim financial statements as those used in preparing the financial report for the year ended 30 June 2021, with the exception of valuations of share-based payments and the convertible note. Refer to Notes 5 and 10 for further details.

**Note 2 Segment information**

The Group has identified its operating segments based on the internal reports that are reviewed and used by the Board of Directors in assessing performance and determining the allocation of resources. Reportable segments disclosed are based on aggregating operating segments, where the segments have similar characteristics.

The Group's activities encompass mineral exploration and resource development in various international jurisdictions and as such management currently identifies the Groups geographic positions as its operating segments.

The following tables present revenue and loss information and certain asset and liability information regarding operating segments for the half year ended 31 December 2021.

- An exercise price of \$USD0.025 per share, with Black-Scholes valuation performed in USD.
- A discount on the value per share at acquisition of 60% to reflect the non-marketability and lack of control of potential shares in a private company.

- An issue date of 13 December 2021 and expected expiry date of 13 June 2022.

These notes were valued at \$USD351,383 or \$AUD484,267 on 31 December 2021, calculated with an AUD:USD FX rate of 0.7256 and no value ascribed to the conversion feature using the same parameters as above. The decrease in value from 13 December 2021 to 31 December 2021 of \$AUD3,470 is due to interest receivable recognised of \$AUD1,907 before a foreign exchange loss of (\$AUD5,377). These movements are included in the balance of Financing costs as disclosed in note 3.

No allowance has been made for credit risk because these notes are effectively secured against the Afranex project for which the counterparty has already paid \$USD 1,164,900 or \$AUD1,582,646.

Increasing or decreasing the 31 December 2021 AUD:USD FX rate of 0.7256 by 100 points to 0.7356 or 0.7156 would change the 31 December 2021 value of these notes from \$AUD484,267 to \$AUD477,683 or \$AUD491,033 respectively, for an additional (decrease) or increase in value of (\$AUD6,584) or \$AUD6,766 respectively.

These notes have been valued as tier 3 financial assets, the lowest level of the fair value hierarchy disclosed in note 1(u) of the 30 June 2021 financial report, because the valuation model for the conversion feature is not based on observable market data.

**Note 6 Sale of Alaskan interests and recognition of disposal group**

The Group agreed to sell its US subsidiary Afranex (Alaska) Limited, which holds all US assets and related liabilities, on 12 April 2021. This met the recognition criteria for a disposal group.

The previous farm out agreement was terminated by this sale agreement. Receipts of \$USD290,000 received under the previous farm out agreement form part of the new share sale agreement's sale consideration, hence this revenue that was previously recognised in the 31 December 2020 interim financial statements was reclassified at 30 June 2021 to unearned revenue in disposal group's assets and liabilities as the sale was not complete at 30 June 2021. Comparative balances for the half year ended 31 December 2020 have been revised to reflect this.

The assets of the disposal group, which consist solely of capitalised tenement acquisition costs and mineral exploration expenditure have a net carrying amount of \$AUD2,083,864 (2021: \$AUD2,011,242), and are not impaired because the expected sale proceeds of \$USD1,514,900 or \$AUD2,087,789 plus future contingent payments are in excess of the carrying amount of the assets.

The \$USD1,514,900 (\$AUD2,087,789) received to 31 December 2021 (30 June 2021: \$USD500,000 or \$AUD665,070) is recognised as a liability because it would be refundable if the Group withdraws from the sale for reasons other than redemption or conversion (at the Company's election) of the convertible notes. This \$USD1,514,900 (\$AUD2,087,789) includes the convertible notes disclosed in note 5 because completion of the sale requires redemption or conversion of the convertible notes.

The 12 April 2021 sale agreement had the following payment terms:

- \$USD290,000 already received under the terminated farm out agreement;
- \$USD60,000 that was received on 12 April 2021;
- \$USD150,000 receivable by 21 April 2021 that was received on 22 April 2021;
- \$USD500,000 receivable by 21 June 2021 (amended to \$USD250,000 by 20 July 2021 and \$USD300,000 by 31 August 2021 – only \$USD400,000 of these amounts were received by 31 August);
- \$USD500,000 receivable by 20 August 2021
- Completion not occurring until all above payments had been made, with no transfer of until all payments had been received;
- The Group being able to keep all funds received to date and terminate this agreement if any instalment is more than five business days overdue.
- Payment of the instalments guaranteed by Australian entity Clutch Group Pty Ltd.
- An uncapped gross revenue royalty of 1.5% on all minerals produced from the Alaskan tenements;
- \$USD1,000,000 payable on the definition of an inferred mineral resource of 500,000 oz Au; and
- \$USD1,000,000 payable on the definition of an inferred mineral resource of 1,000,000 oz Au.

Following delayed payments, the payment schedule was repeatedly revised and the convertible notes disclosed in note 5 were included in the required payments. Following these revisions, a total of \$USD664,900 or \$AUD905,841 (using exchange rates at dates that funds were received in the Group's bank accounts) was received during the year, for a total amount received since May 2020 of \$USD1,164,900 or \$AUD1,582,645, plus the outstanding convertible notes disclosed in note 5. The revisions had no effect on the 1.5% royalty or \$USD1,000,000 contingent bonus payments.

No impairment for potential non-payment has been recognised at 31 December 2021 because the only remaining effective payment is conversion (at the Company's election) or redemption of the convertible notes. This is considered highly likely because the potential retention of the full project on non-payment on redemption would lead to the Group keeping the full project with no refund of payments received to date.

Foreign currently translation movements are not separately recognised for the disposal group until the disposal group is derecognised on loss of control.

Although the value of the disposal group is being realised in \$USD, and the funds received in advance are denominated in \$USD, these are not considered financial instruments by relevant accounting standards. The convertible notes are not included in the disposal group because they are held directly by the Company and consequently not part of the component of the entity that is classified as held for sale.

We have reviewed the accompanying half-year financial report of Riversgold Ltd ("the company") which comprises the condensed consolidated statement of financial position as at 31 December 2021, the condensed consolidated statement of profit or loss and other comprehensive income, the condensed consolidated statement of changes in equity and the condensed consolidated statement of cash flows for the half-year ended on that date, notes comprising a summary of significant accounting policies and other explanatory information, and the directors' declaration, for the consolidated entity comprising the company and the entities it controlled at the half-year end or from time to time during the half-year.

Based on our review, which is not an audit, we have not become aware of any matter that makes us believe that the half-year financial report of Riversgold Limited does not comply with the *Corporations Act 2001* including:

- (a) giving a true and fair view of the consolidated entity's financial position as at 31 December 2021 and of its performance for the half-year ended on that date; and
- (b) complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

#### *Basis for conclusion*

We conducted our review in accordance with ASRE 2410 *Review of a Financial Report Performed by the Independent Auditor of the Entity*. Our responsibilities are further described in the *Auditor's responsibilities for the review of the financial report* section of our report. We are independent of the company in accordance with the auditor independence requirements of the *Corporations Act 2001* and the ethical requirements of the Accounting Professional and Ethical Standards Board's APES 110 *Code of Ethics for Professional Accountants (including Independence Standards)* (the Code) that are relevant to our audit of the annual financial report in Australia. We have also fulfilled our other ethical responsibilities in accordance with the Code.

#### *Material uncertainty related to going concern*

We draw attention to Note 1 in the financial report, which indicates that a material uncertainty exists that may cast significant doubt on the entity's ability to continue as a going concern. Our conclusion is not modified in respect of this matter.

*Auditor's responsibility for the review of the financial report*

Our responsibility is to express a conclusion on the half-year financial report based on our review. ASRE 2410 requires us to conclude whether we have become aware of any matter that makes us believe that the half-year financial report is not in accordance with the *Corporations Act 2001* including giving a true and fair view of the consolidated entity's financial position as at 31 December 2021 and its performance for the half-year ended on that date, and complying with Accounting Standard AASB 134 *Interim Financial Reporting* and the *Corporations Regulations 2001*.

A review of a half-year financial report consists of making enquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with Australian Auditing Standards and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

*Independence*

In conducting our review, we have complied with the independence requirements of the *Corporations Act 2001*.
